

NUCLEAR ENERGY**Precision related to the press release issued on 13 April 2021
about the contract for the manufacturing of lifting systems for the
Hinkley Point power plant (UK)**

This press release, available [here](#), relates to a contract signed with Framatome in the summer of 2020. Our client has just authorized us to communicate this information. The corresponding turnover has already been included in the backlog on which CNIM group communicated on 29 October 2020.

About CNIM:

Founded in 1856, CNIM is a French global industrial equipment manufacturer and supplier. The Group supplies products and services to major public and private sector organizations, local authorities and national governments in the Environment, Energy, Defense, and high technology markets. Technological innovation is at the core of the equipment and services designed and manufactured by the Group. Applications include producing cleaner and more competitive energy, reducing the environmental impact of industrial activities, securing sensitive facilities and infrastructure and protecting people and States. The Group, listed on the Euronext Paris stock exchange, has a stable, majority family-shareholder base, committed to its development. The Group employs 2,800 staff and had revenues of €588.4 million in 2019, 48.2% of which came from exports.
