

L-CAT[®]

SHIP-TO-SHORE MK II

High speed sea connector
for amphibious operations

L-CAT[®] Ship-to-shore

HIGH SPEED SEA CONNECTOR

In service in the French Navy since 2011 and the Egyptian Navy since 2016, the L-CAT[®] Ship-to-shore performs missions worldwide.

Highly mobile and maneuverable, the L-CAT[®] Ship-to-shore ensures the rapid projection of tactical units during amphibious operations.

After 10 years of service in the French and Egyptian navies, the L-CAT[®] Ship-to-shore has been redesigned to meet the future needs of the world's navies. The L-CAT[®] Ship-to-shore MK II is faster and adapted to operations in harsh militar environment (capability for self-defence, armouring).

Equipped with 2 foils instead of one, the L-CAT[®] Ship-to-shore MK II offers twice as much speed and stability in rough seas.

VARIABLE DRAFT SYSTEM A UNIQUE DESIGN

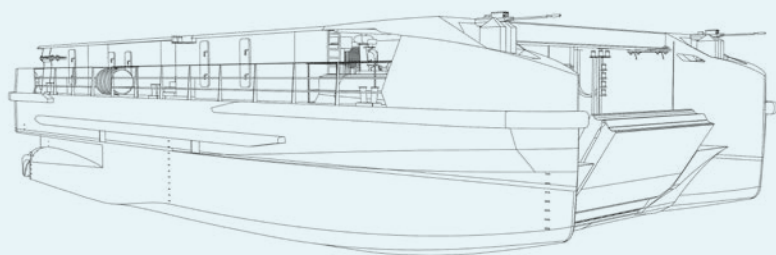

- ▲ Sea proven
- ▲ High speed
- ▲ High payload
- ▲ Very shallow water operations
- ▲ Adapted to militar applications or civilian logistic

L-CAT[®] Ship-to-shore MK II

▲ MAIN CHARACTERISTICS

	Length / Width	30 m / 12 m
	Draft at full load	1 m
	Speed at full load / Light ship	25 kts / 35 kts
	Sea state	5
	Normal / Maximum payload	80 t / 100 t
	Platform area	127 m ²
	Range	500 nm
	Weapons	2 x 20 + 1 x 12.7
