

Montigny-le-Bretonneux, Sept. 30, 2020

PRESS RELEASE

Bertin Technologies, a subsidiary of CNIM Group, announces the sale of its energy and environmental engineering and consulting business to Naldeo Group.

With the aim of refocusing its strategic objectives, Bertin Technologies is today announcing the sale of Bertin Energie Environnement (BEE) to Naldeo Group. BEE provides its clients with expert assistance and advice on technologies, process engineering, industrial risk management, operational safety, industrial performance, renewable and decentralized energy production, software and digital solutions.

Announced on the 15th of July after a reporting process and close consultation with the employees' representative bodies, the acquisition of Bertin Energie Environnement's business assets by Naldeo Group was completed today.

This acquisition, done through its subsidiary Naldeo Technologies et Industries, will enable Naldeo Group to strengthen both its expertise and its client base in the field of transitions in the ecological, energy, water and digital domains.

About Bertin Technologies

BERTIN TECHNOLOGIES, a subsidiary of CNIM Group, draws on its long experience in innovation to develop, manufacture and market worldwide innovative systems and instruments in the fields of Defense, Nuclear, Space, Large Scientific Instruments, Life Sciences and Hospital. Its subsidiary Bertin IT is specialized in the development of cyber software solutions (security & intelligence). Among its 640 employees, two-thirds are engineers and high-level managers. The company is present with dedicated subsidiaries in Germany, Sweden, England, the USA and Italy and generates about 50% of its turnover outside France.

A CNIM Group company

Founded in 1856, CNIM is a French equipment manufacturer and industrial contractor operating on a worldwide basis. The Group provides its products and services to major public and private sector organizations, local authorities and national governments in Environment, Energy, Defense, and High Technology markets. Technological innovation is at the core of equipment and services designed and manufactured by the Group. They contribute to produce cleaner and more competitive energy, to limit environmental impacts of industrial activities, to secure sensitive facilities and infrastructures, and to protect individuals and nation states. CNIM is listed on the Euronext exchange in Paris. It relies on a stable family-based majority shareholding structure committed to its development. The Group employs 2,800 people and had 2019 revenues of €588.4 million in 2019, 48.2% of which was from exports.
