

# WORLD CLASS BRIDGES

Adapted on 10 x 10 truck  
& main battle tank

Based on the strong experience of the French Army proven modular assault bridge, CNIM offers bridging systems that can adapt to any main battle tank or 10 x 10 truck.

**BEST OF CLASS PERFORMANCES**

**MLC 85T/100W**  
(long bridge for 24 m gap)

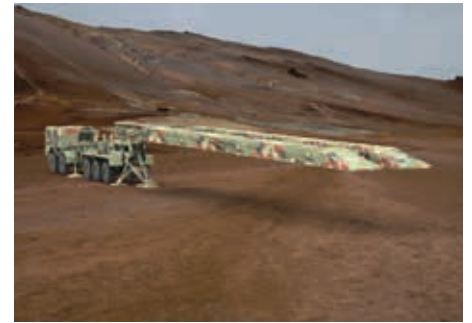

**MLC 100T/150W**  
(short bridge for 12 m gap)

**High fatigue resistance**

Whatever the chassis, you have the best crossing capabilities.

**Modular assault bridge adapted on your truck fleet**

Meet the outstanding crossing performances of PTA bridges, tailored to your fleet of 10x10 vehicle and reduce your crew and maintenance costs.

**High Performance Bridge on MBT**

With the PTA bridge fitted on your tank, you will get outstanding crossing capabilities.

**Interoperability between the 2 systems**

To ensure the Armed Forces a rapid progression and the best use of their vehicle fleet, the bridges can be recovered by either a 10 x 10 truck or a tank.

**HEADQUARTERS**  
35, rue de Bassano  
75008 Paris  
France
